Logo Design

If you know how to change the perspective that you sees, if you know how to fight against visual disease what we have around. And if you can listen to your client patently then perhaps you can be the part of the responses to the piece of designing.

Photography

Because the shadow have more to say, than the light. These two things make the effect of amazing characteristics. Taking an image, freezing a moment, reveals how rich reality true is. Sometimes it’s a picture by the sun without instruction in art, and some time the face of noise and darkness mirrored by moon. The best about photography is, it makes you forget you're there.Searching the right combination between them.

Poster Design

a temporary promotion of an idea, product, or event put up in a public space for mass consumption." Typically, posters include both textual and graphic elements, although a poster may be either wholly graphical or wholly text. Posters are designed to be both eye-catching and informative.

Brochure & Booklet

A brochure is an informative paper document (often also used for advertising) that can be folded into a template, pamphlet or leaflet. A brochure can also be a set of related unfolded papers put into a pocket folder or packet. Brochures are promotional documents, primarily used to introduce a company, organization, products or services and inform prospective customers or members of the public of the benefits.

Business Card

Business cards are cards bearing business information about a company or individual. They are shared during formal introductions as a convenience and a memory aid. A business card typically includes the giver's name, company or business affiliation (usually with a logo) and contact information such as street addresses, telephone number(s), fax number, e-mail addresses and website.

Web Design

encompasses many different skills and disciplines in the production and maintenance of websites. The different areas of web design include web graphic design; interface design; authoring, including standardised code and proprietary software; user experience design; and search engine optimization.

the End

Searching through the internet i found one of an interesting line. It was by Peter Drucker and he says -

The only thing we know about the future is that it will be different.

And i have hope for the future.
